

# HAAS RECYCLING SYSTEMS

## HAAS Bunker Loading and Unloading System

### Ideal to load and unload boxes

Convenient for bulk goods as wood chips, sawdust, rice husks, EFB and other materials

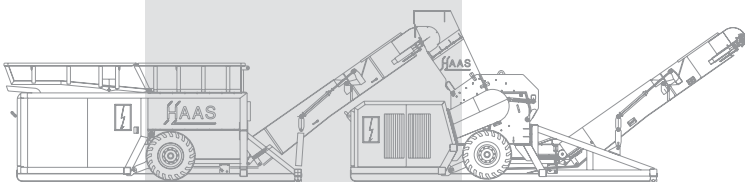

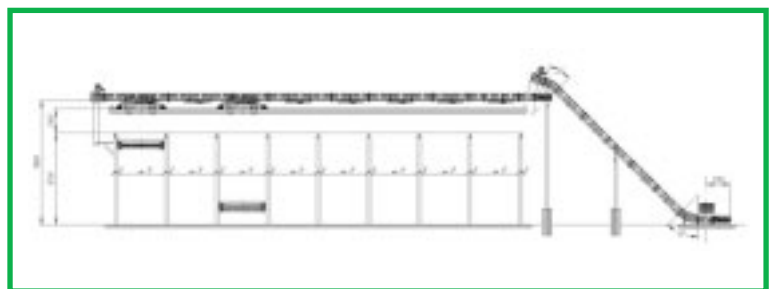

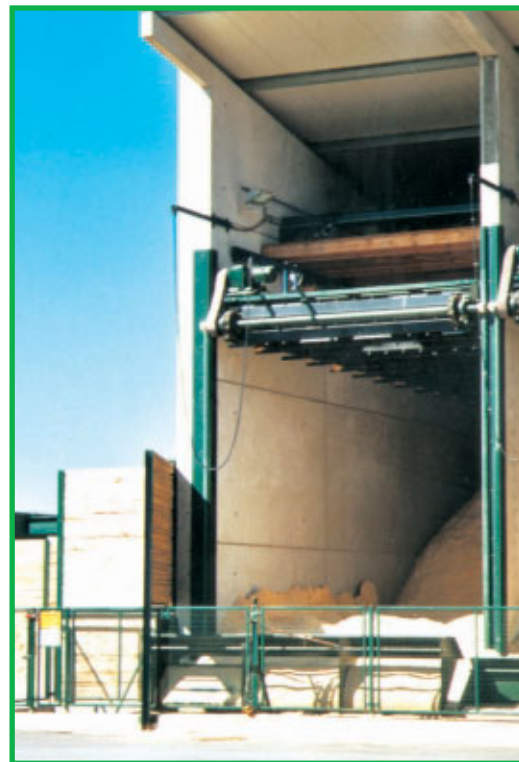

The system will be set to the customers specific size of boxes

The loading and unloading system will be fed by an additional chain conveyor (with slides over each box)

In front of the boxes a further conveyor will be installed to collect and evacuate the material

The system is extendable to a multiplicity of bunkers

**Please do not hesitate to contact our sales team for your individual solution**
